

Visual Media Design

105

*I'm interested in digital design
so I want to learn about it.
Moreover, I need to take
Photoshop class and VMD 105
is required. I really enjoy this
class because it helps me know
more about "digital world".*

VMD 105

THESE
ARE
ALL
OF
ME

For Raster Project, I basically chose all my pet pictures and collected them in a women's shade. Well, that women represents me because I didn't have any picture like that. I love my pets so much, they are all of me and I really missed them.

RASTER GRAPHICS

Flying Corgi...

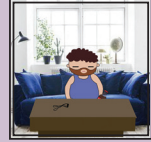

I love cute animals and Corgi is one of them. So for my Illustrator Project, I wanted to create a Corgi. For more interesting, I made him wings and flying in the sky! How cute and funny when a fat dog with short legs and no tail like Corgi is flying high in the sky!

ILLUSTRATOR PROJECT

For Animation Project, I just wanted to make something funny. My animation is about a lazy man who wanted to open his coke but too lazy to find a bottle opener. So he used his wife's eyelash curler that he accidentally saw on the table to open it.
